

Medical Marketplace Mobile App

Our Medical Marketplace application is a true e-commerce app for healthcare that meets consumers where they are – on their smartphones, tablets or PCs. Contact us today at 1-844-528-4338 or sales@medcoservices.com for a private demonstration of how this application can help you and your consumers.

Medical Marketplace Mobile App

Medical Marketplace application allows patients to:

- Make their own appointments
- Select physicians or facilities based on availability and/or cost
- Know their expected out of pocket cost based on their insurance
- Complete required paperwork, including consent signatures before arriving
- Track their spending and insurance deductibles
- See other patient reviews
- Set reminders in their calendar
- Receive turn by turn directions to their appointment
- Arrange transportation to their appointment

Medical Marketplace application offers providers:

- Pricing Transparency
- Increased POS collections
- Decrease patient wait times
- Increased accuracy
- Reduced Registration FTE's

**Our application is
not a patient portal.**

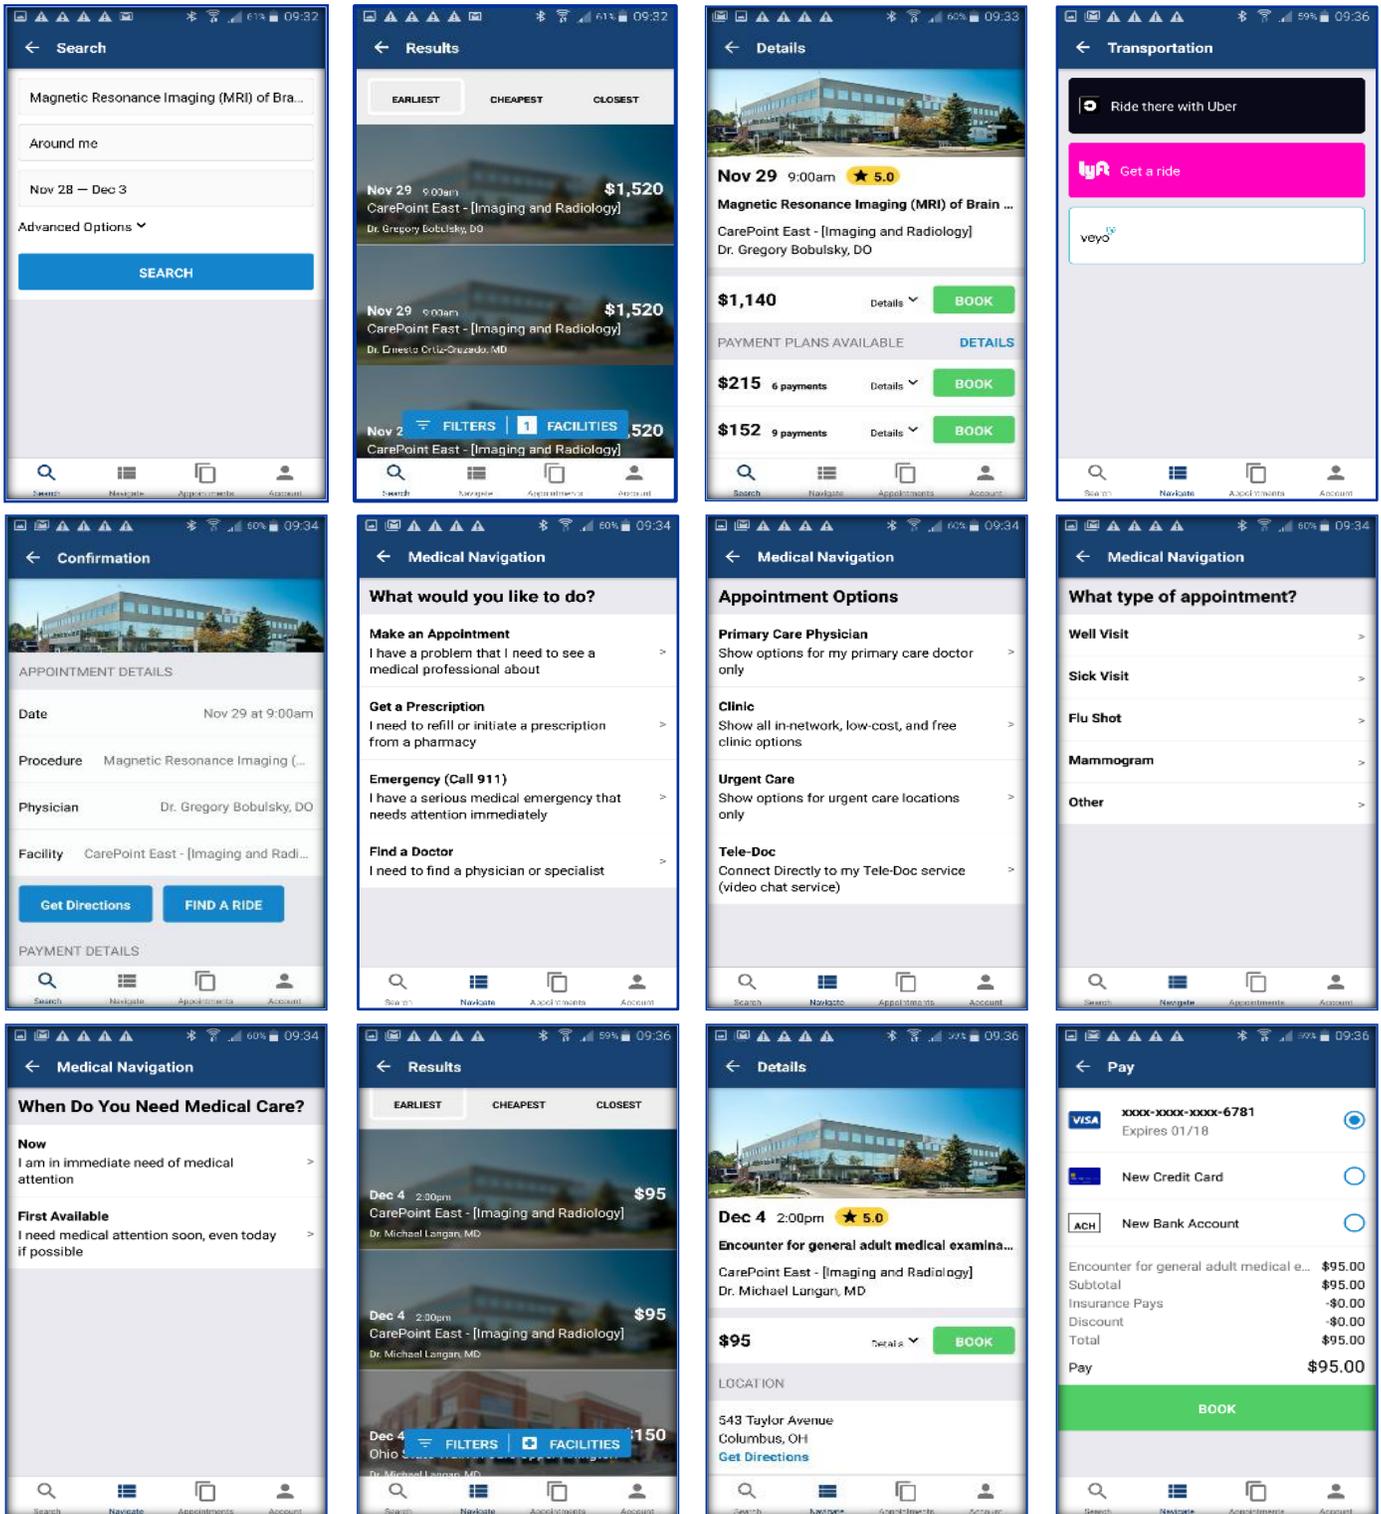

It's so much more.

E-Commerce Medical Marketplace Application

Flexible and simple – yet powerful. This app truly has it all. Consumers can easily select, book and pay for services and procedures right from their phones. App can be customized with YOUR logo, messaging and provide info about special amenities you offer.

Consumers can find and book visits with their PCP as well as MRIs and everything in between. We even have telemedicine options. In addition, the app navigates people to the highest quality, lowest cost option. Our revolutionary platform gives consumers so much more than estimates. They see the ACTUAL price, and they can pay in full when they schedule or set up payment plans. All from their smartphones.
